No worries. What you are working on right now is definitely priority. Feel free to get to this when you have time. If you think it might take more than a couple of days, you might want to send them an email saying that you will get back with them in a couple of days.

Thanks again for your help!
Bo

Sure I will do both (update you and respond to the person) First I need to figure out what product they are talking about when referring to "the one company" I'm thinking it's Reckitt Benckiser, but I'll have to look into it. I'll most likely be able to do it at the end of today or when I get in tomorrow morning if that's ok?

Jen.....When you get a chance (i.e., when you aren't working on the table anymore) would you please read the email below. Can you either give me an update or respond to the person?

Thanks tons!
Bo

Hi John,
I was just wondering if you could give me a brief update on the status of rodenticide products and their amended labeling. I know that all of the companies except for one agreed to update their labels. Have all amended labels been submitted to the EPA for review?

Also, is there any word on the one company and if they are going to submit amended labels which are in compliance with the
